SECTION: OPERATIONS

TITLE: CRISIS POLICY

ADOPTED: October 28, 1985

REVISED: September 30, 1991,
July 13, 1995

Formerly policy 6201

826. CRISIS POLICY

The Southern Lehigh School District recognizes the significant impact traumatic events can have on the mental health of students, both individually and collectively. The district is committed to helping individual students through identification, consultation, and referral to community agencies for therapy and treatment. Recognizing that the traumatic nature of certain events can significantly affect the entire school environment and community, the district administration will continually provide the staff with guidelines and in-service training on how to deal with the phenomena of crisis.
