

April 23, 2021

SLSD Parents and Guardians,

The Southern Lehigh School District is committed to examining issues of diversity, equity, and inclusion as it relates to the wellbeing and academic success of our students. With this in mind, the Southern Lehigh School District is seeking feedback from the school community regarding the climate of our district as it relates to equity. By participating in the following survey, members of the SLSD school community will provide a critical perspective that will help to determine how to move forward as a district to ensure that we are meeting the unique needs of every student.

The following survey is voluntary. Furthermore, it is completely confidential. The SLSD will not collect your name, email address, or any other personally identifying information about you (with the exception of some basic demographic questions). At no point in time will your identity be connected to your responses to this survey, nor will your identity be shared with district staff or administration. Please take a moment to review each question carefully and to answer each question as honestly as possible. Click on the following link to access the content of the Southern Lehigh School District Climate Survey for Parent(s)/Guardian(s).
