Caron Foundation

Educational Support Groups

Virtual Open House

Thursday 9/24/20 at 7:00 PM

The Southern Lehigh School District is proud to host a Virtual Open House on the Educational Support Groups offered to students at JPLIS, SLMS, and SLHS. These support groups are available to our students at no cost to students or families. The purpose of these groups is to help students cope effectively with the common barriers that inhibit success. The event will allow community members to learn more about the Educational Support Groups and to provide families with an opportunity to interact with staff from the Caron Foundation. Additional information about the Zoom login procedures will be available on the SLSD website prior to the open house event.
