DeSALES UNIVERSITY

SUMMER VIDEO INSTITUTE

THE INSTITUTE • June 24 to June 29, 2019

The Summer Video Institute (SVI) at DeSales offers students an introduction to the theories and techniques of digital movie making. Working with state-of-the-art technology, students will design, shoot and edit films of their own creation. Projects will focus on equipment and video techniques. Each student will produce their own film and contribute to a larger scale production. The days will include lectures on such topics as scriptwriting, equipment training, Photoshop, green screen, composition, sound and editing software, and using drones to name a few. At the end of the program, the final films are celebrated in a festival screening open to invited guests.

Upon successful completion of the program, each student with a high school graduation date of 2021 or prior will be eligible to receive three college-level credits.

Students may commute or residence will be provided.
