November 2015

Did you know we now have the ability to check out ebooks? The SLSD librarians have joined districts in the Lehigh Valley to offer ebooks to students and teachers through an online program called OverDrive. The tech department is in the process of installing OverDrive apps on all ipads 3rd grade students can access through their chromebooks. All students also have access through their home personal devices.

Students can check out books for a period of 14 days. Books are organized by reading level, genre, subject etc. For some books, multiple copies are available. Also, we have purchased a few titles in Spanish. Using OverDrive, students can now check out additional library books at any time. This tool has a lot of great classroom possibilities from reading groups to simply projecting a book for all to see while reading aloud.

I will be introducing Overdrive to classes in the library. If you would like more information or just want to check it out, see me or try the OverDrive page on the library website.

Book Fair

It is time to think about Book Fair! **Students will be shopping at their library classes during the week of November 16th.**

I will be reviewing all Book Fair information with them

prior to their shopping day to help reduce confusion.

There will be no morning or recess shopping. Students can shop at their library class or with parents during open book fair hours.
