Deneen Carreras	<i>The conference will help me maximize TCP V6 and view new upgrade V7. It will explore all the great tools, tips and tricks TCP has to offer. I'm sure TCP has so many features that we are not utilizing. We did look at having TCP come to SLSD for training last summer, but the cost to have them come here would have cost SLSD close to \$9,000.00. They are also rolling out a new update V7, Southern Lehigh will have to think about upgrading. They will no longer support V6. I will be attending classes for V6 & V7, being able to see the new V7 and how it works would be very helpful. I will also be able to talk with other school district regarding TCP.</i>						1,311.00
