I will be specifically looking at workshops that focus on school climates and classroom management. Attending these workshops serve as a portion of the research that I am doing as part of my PGP and will provide additional strategies to improving overall climate in the building. In addition, I have been asked by a colleague to speak at a round table discussion after her presentation on “Reading Efficacy.” She has asked me to focus on how teachers can design instruction to help support and build their students’ self-efficacy.
