

Creating an Assignment in BOTH AM and PM Classes

When creating a new assignment, you can copy it over into your other courses. In this example, I am creating my Common Assessment Topics in my AM class for Math.

New Assignment Kindergarten Math AM Section 44A - Per. 0 Marking Period Q1

After I fill out the Assignment Name, Assignment Code, Category (if applicable) and the point value, I can click this bottom portion (the blue bar) and it will provide me with options to also include it in other courses. In this case, I only want to add it to my PM Math. Just check off what you need and then Save!
