### Lesson 4 (Friday, September 7)

First 5 minutes of **each class** to discuss ALICE protocol for specific room.

Every teacher will have a discussion with each class:

In the event that we need to use our ALICE training...

- What can I do in this room?
- How will it look?
- Where would we go if we evacuated?

The goal is for students to have a plan for each of their classrooms, in different areas of the building.
