Transportation

---

### **MEMO**

**To:** Non-Public School Parents

**From:** Susan Knoll  
Coordinator of Support Services

**Subject:** Request for Transportation under Act 372

**Date:** December 2018

---

Under PA Act 372 nonpublic school children are entitled to transportation to nonpublic schools.

It is our intention to provide the same level of service to nonpublic students as we do for the public students.

A few points to remember:

- If a student does not ride for 10 consecutive days, we will move that student to the closest stop and may reroute the bus if it means a more efficient route. If a student wishes to ride again, parents should call Brandywine Lehigh, and it may take up to 3 days to reinstate their stop.
- Transportation that the District provides is not intended to be an on-call service.
- Ride-times for nonpublic students out of the district can be 80-90 minutes long, depending upon the number of riders and the location of the school.
