T. Walter - Middle School concerned about the handicap exit.(related arts area) - Tara will check with the Nurse and report back to the Safety Committee T Walters spoke to the nurse, and plans were forwarded to the teachers.

S. Knoll - Staff in all buildings are requesting projectors to be mounted in ceilings of classrooms. Since quotes came back very high, \$3000.00 per classroom, we will not be able to mount projectors in all rooms. The Committee suggested to identify the rooms that are most critical and then move ahead with the project. The Facilities Director will reach out to building principles to identify these rooms. We will wait until the new Facilities director is hired to proceed with the project. Looking at this through the Feasibility Study

A Werner - High School student twisted an ankle in one of the fields. This issue has been fixed.
