Logging into Google Classroom
Logging into Google Classroom

1. Go to google.com
2. Click “Sign in”
Username

1. Student's email is as follows…
   a. sngraduationyear.
   b. lastnamefirstinitial
   c. @spartandocs.org
   d. Example: sn30.doej@spartandocs.org

2. Click Next
Password

1. To complete the log in, use the password that the student uses to sign into their school Chromebook. This password should be easy to remember and not shared with any other students.
2. Click Next
Welcome Page

1. To access Google Classroom and all of the other GSuite for Education apps (Docs, Sheets, Slides, etc.) click the button with the 9 dots in the top right hand corner of the screen.
1. A drop down menu appears with the different apps accessible to the students.
2. Google Classroom is the one that looks like a green chalkboard. Click on it.
The Class Homepage
1. Find the Google Classroom that you would like to enter and click on it.
This is the Classroom Homepage. We are going to take a look at the different parts of the homepage that allows you to access assignments and other features of Google Classroom.
Accessing Assignments
Assignments and announcements will show up in a class stream. Once the teacher adds something to Google Classroom, it will show up here. It is almost like a social media post. The most recent will be on the top and older posts will be on the bottom. Every post is able to be clicked on and opened.
Once you click on a specific assignment or announcement, it will bring you to a page that looks like this.

1. This is where you will find any directions and notes from the teacher. Some assignments will ask the students to comment, this can be done here as well.

2. This is the actual assignment that the teacher posted. The students can open the Doc, Sheets, Slides, or other file type the teacher assigned.

3. Once the student completes the assignment, click the Turn In button and the green assigned will change to a grey turned in.
Other Important Features
These two highlighted buttons will take you to the “Your Work” page. Instead of seeing all of the work as a stream, it will condense it into a list view and is a little easier to see what is due.
This is what the list view looks like. It lists the Title of the assignment, the due date, and whether the student turned in the assignment or answered the question. On the left side of the screen, the assignments can be filtered to see what is assigned, which assignments have been graded and returned to the students, and which assignments are missing.
This next button is one of the more important buttons. This will show all of the assignments in a calendar view.
1. This is what the calendar view looks like. Assignments will show up in a different color block and can be clicked on and opened from this screen.
2. It goes week by week and can be changed at the top.
3. If you look at the top left, it says Parent Classroom, if you click on the drop down arrow, a list of the different classes will drop down and can be clicked on from this screen.
